

# INTERIOR AND PRODUCT DESIGN (IPD)

---

**IPD 803P – Design Studio IV 3 credit hours**

Advanced design problem-solving in the context of complex commercial and residential environments.

**IPD 805P – Design Research Methods 3 credit hours**

The study and application of design problem solving including theory, methods, and contexts. Students will develop a research proposal that will direct their interior design capstone project.

**IPD 807P – Design Capstone Project 3 credit hours**

Self-directed design capstone project based on research and review. The student will develop unique and applicable design solutions, grounded in clear research methodology and theoretical foundations.

**IPD 846P – Professional Practice for Design 3 credit hours**

Study of ethics, principles, and processes of professional design practice, management of design projects, the principles, and processes that define the profession and the value of interior design to society.
