ACADEMIC RESOURCES

Consistent with its mission to provide resources for excellent education and public service, the University of Nebraska at Kearney provides several resources that aid students and faculty in achieving educational success and that promote educational outreach into the local community.

Academic Success Offices

Academic Success provides resources for student achievement at UNK and beyond. To that end, Academic Success houses services that can help students earn better grades, graduate on-time, and become life-long learners. Resources include: Student Support Services, a federal TRIO program; Disability Services; the Kearney Bound Program; a Computer Lab. Academic Success urges students to register for support services, enroll in transition classes, develop an accommodations plan, and/or sign-up for subject tutoring as early as possible. It is never too early to start planning for success. Moreover, taking full advantage of the available resources not only helps students perform academically, but also connects them with a diverse group of fun, interesting and engaged peers and staff.

Online Offerings

UNK has been meeting the educational needs of place-bound, nontraditional adults for more than three decades by offering high-quality, affordable online programs. UNK students who complete online degree programs and courses are offered the same valuable instruction as those who complete degree programs and courses on-campus. Online courses are taught by credentialed faculty with real-world experience. UNK provides a wide range of resources to the campus community to support and develop online and blended courses. These include training for online faculty, course consultations, test proctoring, student-centered resources, and video-related resources. UNK supports online learning spaces designed to encourage interaction and engagement among students and provide faculty with flexible video-capable options for class lectures and tutorials.

UNK closely monitors and evaluates the latest trends and resource developments to advance UNK’s online and blended course offerings to stay competitive in the marketplace. To view UNK’s online programs, courses, and resources, go to ecampus.unk.edu (http://ecampus.unk.edu/).

G.W. Frank Museum of History and Culture

As UNK’s history museum, the G.W. Frank Museum of History and Culture (https://www.unk.edu/offices/frankhouse/) is dedicated to exploring the culture and history of Kearney through collecting, preserving, and sharing the stories of the many individuals associated with its past. Located in one of Kearney’s most historic properties, a Richardsonian Romanesque mansion built in 1889 by former Kearney residents George W. and Phoebe Frank and now listed on the National Register of Historic Places, the museum provides educational opportunities through guided tours, exhibits, special programming, artifact collection, and continuous research. It functions as a hands-on learning lab for UNK students and faculty interested in history, museum work, the arts, culture, architecture, engineering, and related disciplines. The Frank Museum serves as a community center by regularly hosting academic presentations, readings, concerts, theatre performances, and workshops, among other cultural programming. The Frank Museum is available to hold UNK classes for a day or a full semester, and larger group tours can be arranged with at least two weeks advance notice.

The museum is open to the public from 1-5 pm, Tuesday-Friday, and noon-5 pm on Saturday. Admission is free and parking is readily available.

Information Technology Services

Information Technology Services provides administrative and academic technology-based services to the campus in addition to infrastructure, security, client services, and enterprise services. Available services include technical assistance and desktop support for faculty and staff; training for faculty, staff and students using a wide variety of computing resources; wired and wireless internet access; hardware and software purchasing assistance; server support; web development, instructional design; and administrative application development.

A variety of platforms support administrative, instructional and research functions for faculty, staff and students. All students have UNK email accounts and Microsoft 365 collaboration and storage environments. The Canvas learning management system is used for online teaching and learning with integrations to Zoom, VidGrid, Zoom, and Turnitin.

Email and printing workstations are maintained in each residence hall. All of the residence halls offer wired and wireless network access to students in each room and across campus including some outdoor wireless connectivity. Three general-purpose computer labs are located in the Calvin T. Ryan Library. General-purpose labs provide access to a standard suite of software with information available here (https://guides.library.unk.edu/c.php?g=750585&p=6926166). There are student computer labs, some with Macintosh computers and some with Windows-based computers, located in each of the academic buildings, maintained by individual departments.

Students with disabilities and special needs should contact the Office of Academic Success for information regarding accommodations.

The Help Desk, located in Warner Hall 2137, is available to answer questions, resolve problems and provide information about computer use and network services at UNK. Training sessions and hands-on assistance are offered for faculty, staff, and students wishing to learn more about many aspects of technology. The Help Desk is staffed from 8 am to 5 pm on Monday through Friday, and authentication assistance is available 24x7. (See the Helpdesk link at its.unk.edu (http://its.unk.edu/)).

Two sets of guidelines, the University of Nebraska Policy for Responsible Use of University Computers and Information Systems (https://nebraska.edu/offices-policies/policies/no-16-policy-for-responsible-use-of-university-computers-and-information-systems/) and Guidelines for the Use of Information Technology Resources at the University of Nebraska at Kearney (https://www.unk.edu/offices/its/its_main_page_tabs-files/ Policies/guidelines-for-the-use-of-information-technology-resources.pdf), apply to faculty, staff and students at UNK.

Institutional Review Board

The role of the University of Nebraska at Kearney Institutional Review Board (IRB) is to protect human subjects who participate in research and to ensure that research conducted by UNK students, faculty, and staff complies with federal regulations. The IRB is an independent committee comprised of faculty from a variety of academic divisions, individuals with medical expertise, and community members.
The three general ethical principles that underlie the regulations concerning human subject research are: respect for persons, beneficence, and justice. These principles guide IRB review of research conducted at UNK:

**Respect for Persons** - Prospective participants in research must be given enough information about the nature of the research, what is required of them, and the potential benefits and risks of participating to allow them to make an informed decision about whether or not to participate.

**Beneficence** - Research involving human subjects must maintain a favorable balance between benefits and risks. Many types of risk must be considered, including physical harm, psychological harm, harm to one's reputation or employment status, and financial harm. In any risk-potential situation, the benefits should outweigh the potential risk. Subjects must be aware of potential risks before consenting to participate in the research.

**Justice** - Researchers should fairly select subjects for research participation. Fairness refers to the subjects as individuals as well as to subjects as members of any social, racial, sexual, or ethnic group.

At the individual level, subjects cannot be selected only because they are favored by the researcher or disliked by the researcher (for example, only those failing a class are invited to participate). Additionally, certain groups should not be more burdened than others with being research subjects. On the other hand, groups should not be excluded from research because of prior beliefs or because they are difficult to reach as research subjects.

Depending on the research method and subjects, IRB review is conducted at three levels: exempt, expedited, and full board. Researchers should submit their protocols to the IRB prior to data collection. Researchers also must complete a training program. The link to the training, submission guidelines, and forms for IRB review are available from the IRB website: www.unk.edu/irb (http://www.unk.edu/irb/).

**Library**

The Calvin T. Ryan Library (http://library.unk.edu/) staff, in partnership with the classroom faculty, the Division of Student Affairs and other members of the UNK community, provides students with opportunities to develop skills that support their current educational pursuits, further their career opportunities, enrich their personal lives, and, ultimately, prepare them for lifelong learning.

The library provides access to a wide range of computer-based and print information resources, including the library’s catalog, 248 online databases, over 230,000 electronic books, and more than 100,000 full-text periodicals. The online portion of the library never closes, and these electronic resources are available 24 hours a day, seven days a week, to UNK students anywhere in the world who have a computer and Internet access. Reference service is available in person and by chat, text, email and telephone during scheduled hours. The library’s homepage, library.unk.edu (http://library.unk.edu/), provides specific information on services for distance students, as well as serving as a portal to all available print and digital resources. Materials not owned by the library may be requested via Interlibrary Loan from other libraries.

Collections of note include the Special Collections and Archives, focused on Nebraska history and the history of the university. The Library’s Digital Repository, https://openspaces.unk.edu/, provides world-wide access to the research, scholarship, and creative works of faculty, students and staff.

The Curriculum Collections includes examples of resources used in pre-K through 12th grade along with the Nebraska Archive of Children’s Literature, an outstanding research collection of contemporary and historical literature for the young.

The first Learning Commons at a state college or university in Nebraska houses the UNK Writing Center (http://catalog.unk.edu/graduate/academics/academic-resources/#wc), Subject Tutoring, Success Coaching, group study rooms, and other services and activities focused on student academic success.

Numerous computers, printers and scanners are available throughout the library. Wireless computers can be used almost anywhere in the building.

The library’s faculty and staff focus on being an integral part of students’ careers at UNK and work with campus partners to ensure outstanding academic support for every student, graduate or undergraduate, no matter where they are located.

**Miriam Drake Theater**

The Miriam Drake Theatre is a 334-seat proscenium house with a complete functional fly system and modern sound and lighting systems. The stage house has traps, orchestra pit and all the necessary equipment for full value stage productions. The theatre is located in the Fine Arts Building and is home to theatrical and dance productions throughout the year. This space is a laboratory and performance venue for undergraduate students in theatre, musical theatre and dance. The university productions are open to students, faculty and the community at large.

**Museum of Nebraska Art (MONA)**

The Museum of Nebraska Art (https://mona.unk.edu/) is unique among art museums, dedicated exclusively to telling the story of Nebraska through the art of Nebraska. MONA exhibits the work of a distinguished and diverse collection of artists including pieces by Nebraska artists as well as artwork featuring Nebraska subjects by artists from all over the world. A Kearney landmark listed on the National Register of Historic Places, MONA provides a fitting home for its collection of over 6,000 works. Located in downtown Kearney, MONA is a regional center for cultural activities where students enjoy opportunities to broaden their academic experiences through their association with the Museum and its collection. Visitors enjoy MONA by attending exhibitions, special educational workshops, lectures, and musical performances. Web and distance education programming provide connections to the Museum beyond central Nebraska as well. With no admission fee and convenient parking, MONA is an artistic treasure readily available to all. For more information, visit MONA’s website: mona.unk.edu (https://monet.unk.edu/mona/).

**Planetarium and Observatory**

These facilities are operated by the Department of Physics and Physical Science. They exist for three reasons:

1. to be used in the teaching of classes for both astronomy/astrophysics majors and the general student body.
2. to be used for research, and
3. to be used as outreach tools to provide astronomy education to Kearney and the surrounding areas.
The UNK Planetarium is one of the most modern star theaters in the region. The lobby of the planetarium features Nebraska’s only Foucault Pendulum. The pendulum provides a visual demonstration that the Earth rotates on its axis, as first used by Jean Bernard Leon Foucault at the Paris Observatory in 1851. The Zeiss ZKP4 projector provides a realistic view of the night sky, with the ability to move through time and move around the globe at will. Monthly scheduled shows are provided for the general public. The theater is also in frequent use providing shows for regional school classes and other public groups. Of course the theater is also used in teaching various science classes. The planetarium is handicap accessible.

The UNK Observatory is located on the roof of Bruner Hall. The roll-off roof installation provides access to the skies for the Meade 14” Schmidt-Cassegrain Telescope, as well as various smaller telescopes. The observatory provides imaging, photometry, and spectroscopy capabilities that can be used for research, teaching, and outreach. The observatory’s location on the roof means that it is not handicap accessible.

Speech, Language and Hearing Clinic

The Speech, Language and Hearing Clinic is the academic center for the B.S.Ed. degree program in Communication Disorders (http://catalog.unk.edu/graduate/departments/communication-disorders/) and the M.S.Ed. degree program in Speech/Language Pathology. It offers a site for the integration of professional coursework with extensive practical experience under direct faculty supervision for those students choosing this major.

The Speech, Language, Hearing and Ritecare Clinics offer consultation, evaluation, and treatment for students, faculty, and the general public. Services are available for both children and adults with communication disorders related to stroke, laryngectomy, cleft palate, head injury, cerebral palsy, voice disorders, premature birth, stuttering, hearing loss, articulation, cochlear mapping, language delay, swallowing, developmental delay, second language acquisition, language and learning disorders, augmentative and alternative communication needs. The clinics are located at the west end of the College of Education Building. Clients may park in the lot directly off Hwy. 30 by the main doors to the clinic. For more information, please contact the Clinic Coordinator at 308-865-8507 or the Department of Communication Disorders at 308-865-8300.

Testing Center

The Testing Center, located in College of Education Building, provides Computer Based Testing and Paper/Pencil Testing for a wide array of areas. Our Computer Based Testing system delivers both linear exams (all items are presented in order) and adaptive tests (the computer uses the candidate’s response to each item to deliver subsequent items and ends when the computer is able to make a pass/fail determination).

Computer Based testing is offered year round, Monday through Friday, by appointment only. Paper/Pencil testing is conducted on specific published dates with pre-registration required. Study materials are available for certain programs.

The Testing Center services are available to all University of Nebraska students as well as students from surrounding Colleges and the general public.

The following Computer Based Tests are currently available through the Testing Center:

<table>
<thead>
<tr>
<th>Abbreviation</th>
<th>Test Name</th>

</table>

Walker Art Gallery

The Walker Art Gallery (https://art.unk.edu/walker-gallery/) is dedicated to serving the students, faculty and staff of the Department of Art and Art History, the University campus community and the Kearney region, by presenting exhibitions of accomplished visual expression. Two such exhibitions are presented each academic year, drawn from regional as well as national sources. Each of these exhibitions is selected for its educational and inspirational value to the students, as well as artistic merit and intent. As a rule, exhibiting artists and designers lecture on their work, or offer gallery talks. In addition, one half of the standing permanent art faculty exhibits new work each year on a rotating basis.

The Walker Art Gallery devotes half of its exhibition schedule to the UNK art students. There is an annual exhibition of student work deemed exceptional by the art faculty, and a series, each semester, of capstone senior exhibitions. The students are given the primary responsibility for the installation and deinstallation of their exhibitions, thus gaining invaluable practicum experience.
