PSYCHOLOGY (PSY)

PSY 126 – First Year Seminar 1 credit hour
The First-Year Seminar provides students with a multidisciplinary experience in which they approach an issue or problem from the perspective of three different academic differences. The First-Year Seminar will consist of three 1-credit hour courses taken as co-requisites in a single semester. The successful completion of all three courses satisfies the General Studies LOPER 1 course requirement. Students may take the First-Year Seminar in any discipline, irrespective of their major or minor. Students admitted as readmit students or transfer students who transfer 18 or more hours of General Studies credit to UNK are exempt from taking a LOPER 1 course.

PSY 188 – GS Portal 3 credit hours
Students analyze critical issues confronting individuals and society in a global context as they pertain to the discipline in which the Portal course is taught. The Portal is intended to help students succeed in their university education by being mentored in process of thinking critically about important ideas and articulating their own conclusions. Students may take the Portal in any discipline, irrespective of their major or minor. Satisfies the General Studies Portal course requirement. Students may take their Portal course in any discipline. Students who transfer 24 or more hours of General Studies credit to UNK are exempt from taking a portal course.
Total Credits Allowed: 6.00
Prerequisite: First year freshman standing or sophomore standing only.

PSY 192 – Death and Dying 1-3 credit hours
Issues of death and dying are discussed from the perspectives of medicine, psychology, religion, philosophy, law and other fields.
Total Credits Allowed: 3.00

PSY 203 – General Psychology 3 credit hours
The fundamental concepts of psychology as derived through the scientific investigation of behavior are described.

PSY 220 – Introductory Psychology Seminar 1 credit hour
Small group activities in laboratory, discussion group, or seminars that supplement an introductory course.
Corequisite: PSY 203 or PSY 230 or PSY 231.

PSY 230 – Human Development 3 credit hours
Human growth and development is surveyed from the prenatal period through old age and death. Emphasis is placed on physiological, cognitive, and social/personality developments at the various age levels.

PSY 231 – Abnormal Behavior and Society 3 credit hours
An introduction to the various models for understanding abnormal behavior, e.g., genetic and developmental models; the descriptions of predominant mental disorders, and major modern treatment interventions. The course is recommended for those majoring in fields other than psychology.

PSY 250 – Behavioral Statistics 3 credit hours
The methodology used in scientific research is described along with the special problems that psychologists face in the interpretation of research results. Prior completion of college algebra is recommended.
Prerequisite: PSY 203

Additional Course Fee Required

PSY 270 – Research Methods I 3 credit hours
Data collection methods and research designs including their appropriateness for specific areas of study are presented.
Prerequisite: PSY 203

PSY 271 – Research Methods II 3 credit hours
Techniques for designing a specific research project are presented. Students conduct the proposed study and present their findings in an APA style research paper.
Prerequisite: PSY 250 and PSY 270

PSY 280H – Special Topics 1-3 credit hours
An interdisciplinary General Studies course for Honors students that examines the connections between disciplines.
Total Credits Allowed: 3.00

PSY 300 – Orientation to Psychology 1 credit hour
An informal review of academic, professional, and career planning issues of a psychology major.
Prerequisite: PSY 203 and declared major in Psychology.

PSY 310 – Learning and Conditioning 3 credit hours
The concepts and principles of learning are studied in detail. Data from human and animal experimentation are considered. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 312 – Sensation and Perception 3 credit hours
Sensory and perceptual systems are examined in detail. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 313 – Physiological Psychology 3 credit hours
The relationships between physiological processes and human behaviors are studied. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 317 – Biopsychology 3 credit hours
Biopsychology deals with the interaction of biology and behavior from the molecular to the molar level. All levels of interaction are investigated. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 318 – Experimental Social Psychology 3 credit hours
An exploration of the theories, methods and research regarding the relationship of the individual to others and to society. Topics include person perception, interpersonal attraction, attitudes, and attitude change, conformity and leadership. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 350 – Ethics in Psychology 3 credit hours
This course will cover common issues encountered by psychologists and other practitioners in various research and applied paths. The goal of the course is to introduce students to the APA Ethical Principles and Code of Conduct as well as other pertinent ethical guidelines. Topics include: the history of ethical codes, ethics and the law, ethical decision making, personal and professional boundaries, ethics in a clinical setting, animal care, ethical publishing, and international codes of ethics.
Prerequisite: PSY 203

PSY 370 – History and Systems of Psychology 3 credit hours
The ideas of individuals who have influenced the development of psychology as a science from the ancient Greeks to the 20th century are reviewed.
Prerequisite: PSY 203

PSY 371 – Environmental Psychology 3 credit hours
The relationships between behavior and natural and man-made environments are addressed.
Prerequisite: PSY 203
PSY 372 – Cross-Cultural Psychology  3 credit hours
Examines psychological processes related to perception, cognition, human development, psychopathology, gender influences and social behavior from a cross-cultural perspective. Current theories, methods and research findings are discussed. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 374 – Psychology of Gender  3 credit hours
Motivational levels, goals, self-concept, and various personality characteristics which differentiate between women and men are studied. Rearing differences between boys and girls and their accompanying behavioral expectations are studied as well as the development of sex differences in intellectual and biological functions.

PSY 376 – Psychology and Criminal Behavior  3 credit hours
Criminal behavior and rehabilitative efforts will be investigated in light of psychological research, theory and clinical experience. Various potential causes of criminal behavior will be explored. Psychology's role within the legal system will also be addressed.
Prerequisite: PSY 203

PSY 377 – Psychology of Humor  3 credit hours
Theories on why we laugh, how we understand humor, prejudice and humor, and research findings are discussed. Prior completion of PSY 270 is recommended.

PSY 372 – Personality  3 credit hours
Personality theories from Freud to contemporary theorists are discussed. Prior completion of PSY 370 is recommended.

PSY 378 – GS Capstone  3 credit hours
An interdisciplinary experience where students apply the knowledge, cognitive abilities, and communication skills they have gained from General Studies in designing and completing an original project or paper. Students employ methods and interpretive means of two or more disciplines to integrate knowledge and synthesize their results. Satisfies the General Studies capstone course requirement. Students may take their Capstone course in any discipline.
Prerequisite: Junior or senior level standing or within 6 hours of completing general studies requirements.

PSY 388L – GS Capstone Lab  1 credit hour

PSY 399 – Psychology Apprenticeship Programs  1-3 credit hours
Students assist faculty members as research assistants, as classroom discussion leaders, as proctors in PSI courses, or in preparing special lectures or programs. Departmental permission required. PSI proctoring is recommended for those students preparing to take the Graduate Record Exam.
Total Credits Allowed: 12.00
Prerequisite: PSY 203

PSY 400 – Advanced Research Design and Analysis in Psychology  3 credit hours
Advanced multivariate statistical techniques are explored, including Multiple Regression, Canonical Correlation, MANOVA, Discriminant Function Analysis, and Factor Analysis. Special emphasis is placed on computer analysis and on deciding which techniques are appropriate for various data sets.
Prerequisite: PSY 270 or permission of instructor

PSY 401 – Memory and Cognition  3 credit hours
Topics concerning intellectual functioning are reviewed. Emphasis is placed on the information processing approach to the study of mental life. Topics include perception, attention, consciousness, memory, problem solving, and language. Prior completion of PSY 270 is recommended.
Prerequisite: PSY 203

PSY 402 – Psych of Motivation  3 credit hours
The principal issues, methods, and theories of motivation are thoroughly examined.
Prerequisite: PSY 203

PSY 403 – Psych of Humor  3 credit hours
Survey of psychological theories, principles, and facts in areas such as social psychology, personality, psychobiology, development, cognition, industry/organizations, and health as they apply to humor. Specific topics include: why we laugh, how we understand humor, prejudice and humor, multicultural similarities and differences, humor in applied settings (e.g., workplace, education), and humorous media.
Prerequisite: PSY 203 and PSY 270 is recommended.
PSY 440 – Health Psychology  
Exams how thoughts, emotions, behaviors, physiology, and culture influence health and well-being. Topics include: physical systems of the body, stress and illness, health-related behaviors, health services, and end-of-life care.

PSY 450 – Psychological Testing  
This course is designed to teach you about psychological testing. Throughout the semester, you will learn about the basic theory and considerations underlying construction of instruments measuring psychological characteristics. PSY 270 recommended. Prerequisite: PSY 203

PSY 453 – Experimental Child Psychology  
The psychology of child development is studied. Special emphasis is placed on experimental findings related to the development of physical, intellectual and cognitive functioning, and the development of personality. Prior completion of PSY 270 is recommended. Prerequisite: PSY 203 or PSY 230

PSY 455 – Adolescent Psychology  
Adolescent development is comprehensively reviewed. The intellectual, physical, and social/moral development of adolescents is discussed, along with the special problems of young adults. Prerequisite: PSY 203 or PSY 230

PSY 462 – Adult Development and Aging  
The changes in physical, cognitive and social/personality development during adulthood are addressed. Prerequisite: PSY 203 or PSY 230

PSY 465 – Psychopharmacology  
The course consists of an introduction to pharmacology as a science followed by a discussion of therapeutic and recreational psychoactive drugs. Psychoactive drugs are discussed in relation to their effect on behavior and nervous system physiology. Prior completion of PSY 203, background in physiological psychology, or background in biology is recommended. Department Consent Required

PSY 470 – Neuropsychology  
The relationship between human brain function and behavior is investigated. Special emphasis is placed on the behavioral effects of brain injury and methods of neuropsychological assessment. Prerequisite: PSY 313

PSY 475 – Practicum in Psychology  
This course gives the student the opportunity to gain experience in the application of psychological principles in various settings. Department Consent Required

Total Credits Allowed: 3.00
Prerequisite: 24 completed hours of Psychology coursework and permission of the department chair

PSY 480 – Advanced Seminar in Psychology  
An in-depth examination of a particular topic in one of 13 designated areas of psychology. Taught in seminar format. Topics will be announced during the preceding semester. Department Consent Required

Total Credits Allowed: 6.00
Prerequisite: At least 12 completed hours of Psychology coursework and junior or senior standing and permission of the instructor.

PSY 493 – Readings in Psychology  
The student designs a set of readings in a chosen area of psychology. The work is completed under the supervision of the Department Chair. Department Consent Required

Total Credits Allowed: 18.00
Prerequisite: 24 completed hours of Psychology coursework and permission of the department chair

PSY 495 – Psychological Inquiry  
Allows students to empirically study psychological topics previously covered in their upper level courses. Subject areas vary by semester and instructor. Examples include cognitive psychology, developmental psychology, industrial psychology, psychology and law, social psychology, etc. Department Consent Required

Prerequisite: 18 hours of completed Psychology coursework and permission of the department chair.

PSY 499 – Research in Psychology  
The student engages in a research project of his/her own design. The project is supervised by a psychology faculty member. Department Consent Required

Total Credits Allowed: 6.00
Prerequisite: 24 completed hours of Psychology coursework including PSY 270 and permission of the department chair

PSY 475G – Practicum in Gerontology  
This course gives the student the opportunity to work with professionals in the field of aging. Includes 120-180 actual contact hours during the practicum experience.

PSY 477 – Psychology and Law  
Within this course, students will learn how psychology has influenced legal processes and outcomes. Topics covered include theories of criminology, factors associated with police questioning, jury selection and deliberation and punishment and sentencing. Students will also study how psychologists ranging from researchers and clinicians to expert witnesses and advocates work within the legal system. Prerequisite: PSY 203
