PRE-MORTUARY SCIENCE

Offered by Health Science Programs (http://catalog.unk.edu/undergraduate/departments-programs/health-science-programs/)

The program to be followed by pre-mortuary science students is largely determined by the requirements of the state in which they will practice and the mortuary school they will attend.

The following is based upon the state of Nebraska requirements (60 credit hours required) and requirements for regional mortuary science programs:

<table>

Total Credit Hours 68

1 When choosing electives, the student should check with the Mortuary Science Program to which he/she intends to apply in order to insure that all requirements are fulfilled. Also, the student should check the requirements of the state in which he/she plans to practice (if it is not Nebraska).
