

# PUBLIC HEALTH MINOR

Offered by Health Science Programs (<http://catalog.unk.edu/undergraduate/departments-programs/health-science-programs/>)

The purpose of the interdisciplinary Public Health Minor is to allow students from any major to gain insight, knowledge, and experience in the diverse field of public health. The objectives of this minor are: (a) to acquaint the student with the core functions of public health including assessment, policy development and assurance, and; (b) to provide students with knowledge and skills necessary for success in post-baccalaureate public health graduate programs and careers in public health.
